- ABSOLUT ELYX -

Crafted from Single Estate Swedish Winter Wheat, exclusively from The Räbelöf Estate where the wheat has been grown since the 13th century and manually distilled in a copper column still from 1921. Absolut Elyx is the result of century-old expertise, passed down through generations of Swedish vodka makers.

If you taste Absolut Elyx, you will immediately experience the silky smoothness. This comes due the single estate wheat, the manual operation and the old copper catalyzation process. The copper naturally catalyzes trace compounds in the spirit, purifying the vodka and adding a highly prized silky texture and taste. Absolut Elyx is made with passion, expertise and craftsmanship. When it comes to making great cocktails, it's the same attention to detail that produces outstanding results every time.

Absolut Elyx is often enjoyed on the rock, or with a whisper of dry vermouth in a classic Martini. The following recipes have been specially created to make the most of the silky texture and the exceptionally clean vodka taste.
